Constants folding

```
const person$fname = 'John';  
const person$lname = 'Doe';
```

```
function fullName(p) {  
    return p.fname + ' ' + p.lname;  
}
```

```
console.log('John Doe');
```

Dead code elimination

```
const person$fname = 'John';  
const person$lname = 'Doe';  
  
function fullName(p) {  
    return p.fname + ' ' + p.lname;  
}  
  
console.log('John Doe');
