```
        fullName(person));
```

Function call inlining

Function call inlining

```
const person = {
  fname: 'John',
  lname: 'Doe'
};

function fullName(p) {
  return p.fname + ' ' + p.lname;
}

console.log(p.fname + ' ' + p.lname);
```

Property flattening

```javascript
const person = {
  fname: 'John',
  lname: 'Doe'
};

function fullName(p) {
  return p.fname + ' ' + p.lname;
}

console.log(p.fname + ' ' + p.lname);
```
